

OPEN HOUSE AND PUBLIC MEETING

PARKING STUDY TO REVIEW AND UPDATE ZONING STANDARDS AND PROVISIONS

Monday, November 24, 2008

**6:30 p.m. to 7:15 p.m. – Open House – Lobby
7:30 p.m. to 8:30 p.m. – Public Meeting – Council Chambers**

**Whitby Municipal Building
575 Rossland Road East
Whitby, Ontario**

Background

Town Council in December 2007, retained MMM Group Limited to undertake a Parking Study. The purpose of the study is to update the off-street parking standards for all land uses in the zoning by-law and address issues such as the parking of commercial and recreational vehicles in residential areas and the parking requirements for group homes.

The first public and stakeholder consultations to overview the study process and receive input and comment were on February 21, 2008.

Open House and Public Meeting

The Open House will provide the opportunity to view the presentation material, talk one-on-one with the consultant and staff, and comment on the consultant's draft recommendations.

The Public Meeting will allow the consultant to present to the Planning and Development Committee a summary of the analysis phase of the study and outline draft recommendations. The Planning and Development Committee will also receive public comment at this time. The report with all comments received will be referred to Staff for consideration and input to the preparation of the consultant's final report.

The final report and recommendations for new parking standards and provisions will be presented to the Planning and Development Committee early in the first quarter of 2009.

Additional Information/Comments

In order to accommodate further input, any additional written comments should be received by Friday, December 5, 2008.

If you have any questions or comments regarding the study, please contact:
