### **Spray Polyurethane Foam - Safety Precautions for Inspection**

In accordance with manufacturer recommendations, Town staff will not conduct inspections during the application process and cannot re-enter a jobsite until 24 hours after completion of spraying. Failure to notify staff of application completion will result in a cancelled inspection.

This 24-hour timeline applies to both workers and homeowners on site, helping to mitigate health and safety concerns.

We appreciate your assistance in disseminating this information to all site offices and encourage you to be mindful when scheduling your inspections.

Thank you for your cooperation in implementing this important change.
